***Claim Rejections - 35 USC § 112***

Claims 1,2 and 4-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, the phrase "corresponding to" renders the claim indefinite. Claim 1 should depend from claim 6 to correct obvious errors. The term "rails" used to depict the retaining elements on the edges of the curtain is improper. Claim 15 appears to be redundant. Claim 16 should depend from claim 2. Claim 20 appears to be identical to claim 6. Claim 21 is also redundant.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13,14,18 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jones in view of Burns.

In Jones, see top "rod" 202, bottom "rod" 204, side "rods" 208,210, first curtain 112 and second curtain 114, each of different light transmissivity. The curtains are joined by a "seam" 116. Burns discloses "rails" 11 for holding the curtain in the tracks. It would have been obvious to use such "rails" in Jones to maintain his curtain in the tracks.

***Response to Arguments***

Applicant's arguments with respect to have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
